

Assistant or Associate Professor

University of Colorado, Denver
Denver, Colorado, United States

University of Colorado Denver
SCHOOL OF MEDICINE
Advancing Science, Improving Care

As seen in the 12 September issue of *Science*:

<http://scjobs.sciencemag.org/jobs/default.aspx?job=30238>

We invite applications for **Assistant or Associate Professor faculty position(s)** in the areas of **molecular genetics** or **genomics**, broadly defined. We are especially interested in applicants who see large-scale genomics as a biological and technological challenge. Successful candidates will be expected to establish a vigorous, innovative and independent research program and participate in teaching. They will join a highly interactive, interdisciplinary group of faculty (<http://www.uchsc.edu/sm/bbgn/>), students, and fellows, and enjoy access to state-of-the-art equipment and facilities on our new Medical School campus. Candidates must hold the PhD (or equivalent) degree and have a strong record of research accomplishments.

Applicants should apply through the electronic job application website at the University of Colorado: **www.jobsatcu.com**. The preferred browser is Internet Explorer.

Quicklink for Posting:

www.jobsatcu.com/applicants/Central?quickFind=56533

Applicants must include a cover letter, CV, a brief description of research accomplishments and future plans, and names of at least three references. Review of applications will begin **December 1, 2008**, and continue until position is filled.

The University of Colorado Denver is dedicated to ensuring a safe and secure environment for our faculty, staff, students and visitors. To assist in achieving that goal, we conduct background investigations for all prospective employees prior to their employment.
