Conversation: Biologist program manager position at DOE Office of Science

The U.S. Department of Energy, Office of Science, Office of Biological and Environmental Research (BER), is seeking a Biologist to serve as a Program Manager for the Climate and Environmental Sciences Division. *BER advances world-class biological and environmental research programs and scientific facilities for DOE mission needs in energy, environment, and basic research.* The Climate and Environmental Sciences Division supports a broad research portfolio in multidisciplinary and interdisciplinary science including atmospheric systems research, environmental system science, and climate and Earth system modeling. The Biologist Program Manager will be responsible for aspects of the Climate and Environmental Sciences Division programs related to cycling of carbon, water, nutrients, and energy through terrestrial ecosystem research. The position is within the Federal Civil Service, with a salary range of \$86,927-\$153,200. For further information about this position and the instructions on how to apply and submit an application, please go to
