

Major law/public policy firm seeks scientific/engineering expert to support cleantech practice

K&L Gates (www.klgates.com <<file:///www.klgates.com>>), a major international law firm with a significant Washington, DC federal policy practice, is looking for a Ph.D.-level scientist or engineer with experience in the federal policy process to support the firm's growing number of cleantech clients. Candidates should have at least one year of experience working in substantive positions on Capitol Hill or at federal agencies or the White House. The job description involves helping professionals within K&L Gates support clients, mostly start-up companies, advance their clean technologies before the US Congress and relevant federal agencies (such as the Departments of Energy, Agriculture, Transportation, and Defense). Specific support includes pursuing federal funding opportunities, such as appropriations, grants, and loan guarantees. Salary is commensurate with qualifications and experience.

Interested candidates should send a resume and a writing sample to Tim Peckinpaugh at tim.peckinpaugh@klgates.com. Any questions should also be directed to Tim at the same email.
